

polycontact

We are an innovative Swiss technology company based in Chur. For over 60 years, we have been developing and manufacturing customized, customer-specific applications for the automotive industry in the areas of buckle switches, seat sensors, position sensors, electronics/lighting, and wire harnesses. We also offer services for various other industries.

For our Process Development department, we are seeking, starting immediately or by agreement, a:

Senior Automation Engineer (m/f)

Your responsibilities include:

- Developing and optimizing automation solutions for new and existing production equipment at our plants in Switzerland and Romania;
- Specifying and introducing new production systems and stations;
- Evaluating new manufacturing processes, including sample/prototype build and evaluation
- Coordinating suppliers and overseeing acceptance tests;
- Optimizing processes with regard to quality, cost, and efficiency;
- Supporting product development to ensure process-appropriate (DFM) design
- Supporting new business, including process concepts, cost estimation, and investment calculations;
- Preparing make-or-buy analyses and providing technical support on automation topics;
- Ensuring compliance with relevant standards (IATF 16949, ISO 14001).

Our requirements:

- Degree in mechanical engineering or mechatronics/electrical engineering;
- Several years of practical experience in automation engineering and production processes;
- In-depth knowledge of modern automation technologies (robotics, control and test engineering, digital production systems) and their integration in a manufacturing environment;
- Confident handling of production cost and investment calculations;
- Strong communication skills, analytical thinking, team spirit, and enthusiasm for innovation;
- Very good command of German and English.

We offer:

- A key role in the development of our production and automation technologies;
- Freedom to shape and implement innovative manufacturing concepts;
- Interdisciplinary collaboration with Development, Quality, Logistics, and Management;
- Attractive employment conditions with opportunities for further training;
- A modern work environment and a collegial, open team.

Have we piqued your interest? For further information, we are happy to assist you. Contact us at any time! Apply with your complete documents as a PDF directly online or send them to our HR department, Ms. Andreea Pais, andreea.pais@polycontact.ro.
