

polycontact

We are an innovative Swiss technology company based in Chur. For over 60 years, we have been developing and manufacturing customized, customer-specific applications for the automotive industry in the areas of buckle switches, seat sensors, position sensors, electronics/lighting, and wire harnesses. We also offer services for various other industries.

To strengthen our dedicated team, we are looking for a:

Series Process Engineer

Your Responsibilities:

- Official takeover of industrialized projects from Process Development.
- Verification and completion of all process documentation (Flow Chart, PFMEA, WI).
- Ensuring process stability during the post-SOP (ramp-up) phase.
- Monitoring initial performance indicators (scrap, OEE, Cp/Cpk).
- Providing technical support for series production.
- Continuous improvement of the process.
- Managing engineering changes (Engineering Change Management).

Your Profile:

- University degree in a technical/engineering field.
- English language skills – minimum B1 level.
- Proficiency in Microsoft Office.
- Structured and critical thinking.

What We Offer:

- Interdisciplinary collaboration with Development, Quality, Logistics, and Management;
- Attractive employment conditions with opportunities for further training;
- A modern work environment and a collegial, open team.

Have we piqued your interest? For further information, we are happy to assist you. Contact us at any time! Apply with your complete documents as a PDF directly online or send them to our HR department, Ms. Andreea Pais, andreea.pais@polycontact.ro, mobile: +40 799 909 970.
